# ABBA design

handmade furniture

ABBA design hand-made furniture emerged from the works of art concept. Following their inner freedom, creativity and talent, our designers wandered deep into the nature and took what was the best in quality out there – the core of wood, which they shaped, inspired by beauty and style, making sure they did not betray tradition or the environment. Such pieces of furniture have become works of art bringing together the past and the future, nature and technology, beauty and functionality. Led by that vision we have created our motto – harmony of style and nature.

ABBA design is socially responsible, it respects the environment and raw materials, which it finds hugely important. Our carpenters, upholsterers and smelters are committed and hard working, paying attention to the smallest of details, doing their best to improve. Using their hands and dexterity they try and find ways to enhance their products every day. We would like you to join us on this journey which will connect generations.

Very truly yours, ABBA design.

## **THE RUSTIC COLLECTION**

Guided by tradition our designers blended undulating shapes with specific solid wood finishes, creating a product exuding mystic atmosphere. Each piece is a work of art per se which will bring a defining touch into the interior. The furniture from this collection brings elegance and exclusivity into your home.

**THE MODERN COLLECTION**

Inspired by a present-day lifestyle, we have created a functional collection of clean lines. These products can be described to be of quality and streamlined, but such is also a person who takes pleasure in a minimalist design interior. The furniture from this collection perfectly fits into a sophisticated modern lifestyle.
